**Have you ever met someone for the first time and they seemed familiar?
Or, traveled to a new place and felt that you 'came home'? Do you wonder what your
soul purpose is? Or, could unresolved issues from past lives be affecting you today?**

Sheila Garcia: Inspired by a dream and based upon actual experiences, Sheila Garcia, author of *Lifesigns*, has provided a novel rich in thought provoking moments. What is a soul? What happens to a soul when a person dies? Do other souls travel with us through our lives? Explore these queries and more as Sheila weaves her mystery through the southern plantations of Kentucky and across the ocean to England. Adding the flavor of time travel, she also gives an enchanting look at the pivotal Victorian era. www.SheilaGarcia.com
